"Nature is everyone's business"

GEC Annual Meeting 2021 - Day 3

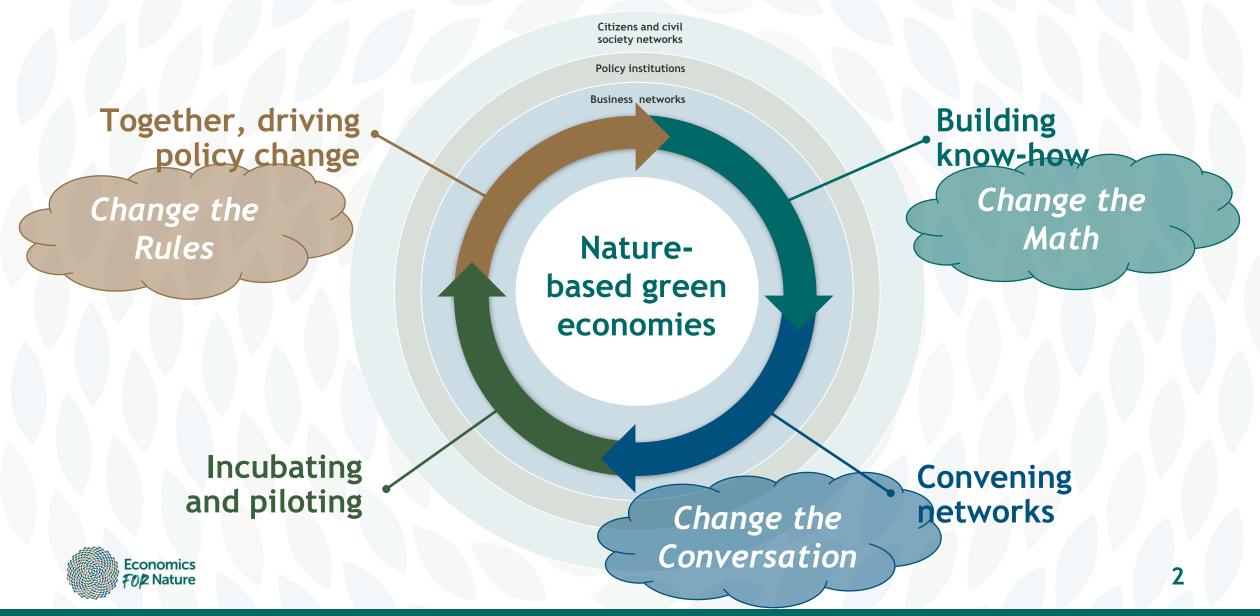

Mainstreaming nature into economic decision-making

Our collective need: system-wide change

To connected national strategies that recognise the role that From disconnected (green) economic national plans and nature plays in delivering jobs, wellbeing, poverty alleviation, decision making structures and are informed by shared natural capital approaches. To **connected institutions**, alert to their dependency on nature, From siloed global institutions using different approaches and datasets and using shared methods, data and tools to combine efforts. From disparate CSOs focused on different To networks of CSOs alert to the role that parts of the agenda (conservation, nature plays in delivering their objectives, climate change, development etc.) and advocating together. To alliances of businesses aware of their dependence From individual businesses using different tools and methods to on nature, drawing on the same set of tools and methods, and collectively driving policy ambition. measure sustainability and impact

COMPANIES ARE **ADVOCATING** FOR MORE AMBITIOUS **POLICIES**

BfN POSITION ON CBD POST-2020 FRAMEWORK AUGUST 2021

BUSINESS FOR NATURE

BUSINESS FOR NATURE'S SUGGESTIONS TO

STRENGTHEN THE CBD POST-2020 FRAMEWORK

Go to webpage for more info

- 3. VALUE AND EMBED NATURE in all decision-making
- 4. ENABLE BUSINESS to contribute to the implementation
- 5. ELIMINATE AND REDIRECT all subsidies harmful for biodiversity
- 6. GREENING MAINSTREAM FINANCE to go beyond short-term profit and GDP
- 7. IMPLEMENTATION through robust monitoring, reporting and reviewing
- 8. NATURE AND CLIMATE objectives are delivered together
